LOW CARBON BUSINESS ACTION

# LCBA Canada Newsletter

The Low Carbon Business Action is a European Union (EU) - funded initiative, which aims to support the reduction of greenhouse gas (GHG) emissions, and to increase the adoption of economic circularity using a business opportunity-driven approach.

**Third Call for Challenge Application is Open**

**18 New Canadian Challenges Across 5 Sectors**

The LCBA Canada has launched the third call for Challenge Application. We are looking for EU innovators to respond to our Canadian Buyers new challenges. You can find challenges from across 5 sectors: **Agriculture, Aquaculture & Agri-food, Electricity, Buildings & Infrastructure, Waste & Plastics and Transportation.**

If your company is an EU supplier on the Low Carbon and Circular Economy Sector, with innovative solutions help solving these Challenges, we invite you to review the opportunities on our website (<https://lcbacanada.com/challenges>) and apply to the challenge(s).

Want to learn more about the Canadian Sectors where LCBA Canada is operating? Please visit our website for more information.

**Challenge Application is open.**

**Apply for a Challenge until 17th of December**

#lcbacanada

The LCBA Canada B2B platform is the place for EU SME's operating on the Low Carbon and Circular Economy looking for expanding the business to Canadian market place, to meet Canadian Buyers.

You can register on the LCBA Canada platform and start engaging with our Low Carbon and Circular Economy network.

**What others are saying About LCBA Canada**

Testimonials from participants on the Second Challenge Pitch event:

**Sahra Shojael,**  
Walker Industries

The incubator programme is rapidly growing. Companies who have passed the scale-up testing of existing business models and services must have a great mix of ideas and innovative technologies. As part of the LCBA Canada pilot on the topic of Electric Air Vehicle Challenge, Pitch application, I was able to identify the most promising technology solutions to my company within the LCBA pilot forward to various opportunities that could result from ongoing discussions with the incubator programme.

**Keith Lawless,**  
Air Transit

Air Transit is proud to participate in the World Green Economy Forum (WGEF) 2021. We were pleased to run a pilot challenge as part of the LCBA Canada project, where Air Transit presented innovative solutions in the aviation sector in our single sector. It is a critical for us and the aviation industry since the EU has the ambitious regulation based on the use of a net-zero aviation emissions footprint. Canada is a market with a stable political situation and a high level of innovation. In addition, people like smaller reduction in a lot, together in our Green targets.

program which seeks to reduce the environmental impact of our business services. These are innovative, emerging technologies that are essential for the future and is especially important for the aviation sector.

We were blessed to participate in the LCBA Canada pilot project. It provided us with a unique opportunity to showcase our innovative solutions, meet and collaborate with other entrepreneurs in the aviation sector. The LCBA Canada pilot project, for this pilot to participate and for our business to showcase our innovative solutions that are essential for the future and is especially important for the aviation sector.

We invite you to register on our Platform for more information and notifications.
